JOSIAH TURNER, Jr., EDITOR.

THE SENATORIAL QUESTION.

We have not thought it necessary to harrow up the hearts of our readers with daily disquisitions upon the all absorbing importance of the Senatorial election next Tuesday, nor have we deemed it essential to the welfare of the State to labor to convince the members of the Legislature that unless Mr. Johnson is elected Senator the State will be disgraced. We believe that the members of the Legislature are abundantly able to do their duty, without any instructions from us, and we have always failed to see the propriety in lamenting quarrels over the distribution of the offices, between the true men who have redeemed the State.—We believe that if Mr. Johnson is elected, the choice will be a good one, and we trust he will be elected upon the first ballot; but we have the utmost confidence in our ability to survive the shock if Mr. Johnson should be defeated, and some other distinguished Tennessean elected.

It is really astonishing, however, to see what a terrible excitement Andy Johnson has created all over the country in announcing himself a candidate for the Senate, and in pressing his claims in the manner he does. It seems somewhat strange that a dead man—as the radicals have assured us Mr. Johnson was—should be able to set the entire radical party in a state of frenzy, and should make the election on Tuesday the leading topic for discussion in all the journals of the country. It certainly looks as though, if dead, Mr. Johnson is one of the healthiest corpses of which any record has been preserved.

It is amusing to read the speculations of the Northern Radical journals upon the result, and to observe the slight foundation upon which they are ready to predicate their prophetic observations. First, a "Tennessee lady" has heard her husband say that he heard the Hon. John Smith, of the Tennessee Legislature, remark that he would bet his bottom dollar on Andy; and the lady, being in Washington, has mentioned the important circumstance to the chambermaid of her hotel, by whom the news was imparted to the clerk, and retailed by him over a cock tail to the enterprising reporter of a metropolitan journal. The astounding fact is at once telegraphed all over the world, and Horace Greeley wipes his spectacles and picks up his well worn quill to indite a few solemn last words of warning, while Forney wonders why a dead man will persist in resurrecting himself and coming back to earth to haunt his tormenters.

Next turns up the "reliable gentleman," whose services as a newsmonger during the late unpleasantness were so often called into requisition, and he has conversed with men of all parties, who tell him that things are mixed, and undoubtedly the man who gets the most votes will be elected. This encourages the venerable Horace and even Forney recovers his spirits sufficiently to write an occasional letter promising great things if the people of Tennessee will only keep that bad man Johnson from disturbing the delightful harmony that now prevails in the United States Senate.

But upon the heels of this comes a private letter to some one in Washington, from a peson in Nashville possessed of preternatural knowledge. The letter falls into the hands of the reporter of the Philadelphia *Press*, and he at once telegraphs that journal its contents, to the effect that "in view of the precarious condition of Senator Brownlow's health, the prospect of his being unable to continue much longer in the Senate, Emerson, Etheridge has made a compact with Andrew Johnson, whereby the *former* is to aid the latter in his Senatorial aspirations, with the understanding that when Brownlow dies Johnson will help to elect Etheridge as his successor!" And, further that the writer expresses the opinion that Johnson will be elected Senator without much opposition.

This astounding combination serves Forney as the text for a withering paragraph upon the late "traitor and apostate." The idea of chaffering about dead men's shoes fills his soul with a holy horror.

The author of that letter must be a man of vast information, able to *see around* a millstone, if not through it, but we advise him to preserve his incognito towards the venerable Senator from this end of the State, if he proposes to continue discounting the old man's life, or else he will find that old Proc has life enough in him yet to manipulate all the words of the dictionary that can be made expressive of vituperation, in a manner far more amusing to bystanders than to the unhappy victim of his wrath.—*Knoxville Press and Herald.*

A CURIOUS ANALOGY.

There is, in the natural world, a remarkable phenomenon, connected with insect life, which has often occurred to me as presenting a curious analogy.

Every butterfly, (the Greek name for which is also the same which signifies the soul *Psyche*) comes from a grub or caterpillar, in the language of naturalists called a larver. This name (which signifies literally a mask) was introduced by Linnæus, because the caterpillar is a kind of outer covering or disguise of the future butterfly within. For it has been ascertained by micro copic examination, that a distinct butterfly, only undeveloped and not full-grown, is contained within the body of the caterpillar; that the latter has its own organs of digestion, respiration, etc., suitable to its larva-life, and quite distinct from and independent of the butterfly which it encloses. On the arrival of the time when the life of the insect in this its first stage is to end, it becomes what is called a pupa, enclosed in a chrysalis or cocoon, and lies torpid for a time in this natural coffin, from which it issues finally as a perfect butterfly.

But som times this process is marred. A numerous tribe of insects in their larva-state are parasitical, inhabiting and feeding on the bodies of other larvæ. The ichneumon fly deposits her eggs in the body of the caterpillar, where they are hatched, and while in the larva state, they feed upon the inward parts of their victim.

A most wonderful circumstance connected with this process is, that a caterpillar which has been thus attacked goes on feeding and apparently thriving quite as well during the whole of its larva life, as those that have escaped. For, by a wonderful provision of instinct, the ichneumon grubs within do not injure any of the organs of the larva, but feed only on the future, butterfly enclosed in it. And consequently, it is hardly possible to distinguish the caterpillar which has these enemies within it from those which are untouched. But when the period arrives for the close of larva-life, the difference appears. You may often observe the cabbage catterpillars retiring to undergo their change, into some sheltered spot, and those of them that have escaped the parasites, assuming the pupa state, from which they emerge butterflies. As for the others, the ichneumon grubs at this period issue forth, and spin their little cocoons of yellow silk, of about the size and shape of grains of wheat, from which they are to come out as flies. Of the unfortunate catterpillar nothing remains but the empty skin. The hidden bu te fly has been secretly consumed.

Now, when you are considering with wonder this most curious phenomenon, think whether there is not something analagous to it in the condition of some of our race; and whether a man may not have a kind of secret enemy within his own bosom, destroying his soul, though without interfering with his well being in the present stage of his existence; and whose presence may never be detected till the time arrives when the last great change should take place.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

TUESDAY, OCTOBER 19, 1869.

STATE PRINTER—ACTS OF ASSEMBLY.

The publication of the Acts of the General Assembly has been delayed six months to promote the interest and convenience of the State Printer, General Littlefield (who, by the way, is a non-resident of the State,) and to keep the people from seeing what the corrupt Legislature has done, as long as possible. The result is, neither the officers of the State nor the people know what the law is. We have called attention to this before, and we do so now for the purpose of giving a practical, and, to the people, expensive, illustration of the evil resulting from the action, or rather, non-action, of the State Printer. In Johnston County there was no Court the second week of the term, because no Jury had been drawn for the second week. The same thing happened in this County. In Wake there were over six hundred and fifty cases on the civil docket, and over one hundred and fifty on the State docket. The dockets, we learn, in Johnston County were also, large. But the business in neither this nor Johnston County could go on for lack of juries. The juries were not drawn because the County officers did not know the law, and they did not know the law because General Littlefield, the non-resident carpet-bag State Printer, has delayed publishing the Acts of the General Assembly for over six months. The same thing has happened in many counties of the State, from the same cause.

Let the people remember that this State Printer, General Littlefield, had an act passed by the Legislature, on the last morning of the session, when no quorum was present, to authorize the Governor to appoint the State Printer, to the end the Governor might appoint this same General Littlefield, the man who has so delayed the public printing at a great expense and to the injury of the people.

By-the-way, do the rank and file of the Radical party know that this carpet-bag State Printer is one of the Governor's *private pets*, and his confidential adviser? Do they know, too, that he is Prince of the "Ring," and that he manipulated the Railroad appropriations through the Legislature, by which the "Ring," has got control of the bonds appropriated? Do they know that it was he who put the Chatham Railroad swindle through, at the price of one hundred thousand dollars? Yes, this elegant diplomatist and financier is the fast and confidential friend of Governor Holden. Do the people see? General Littlefield is the owner of the *Standard* newspaper, (notwithstanding the little legerdemain of a transfer that got an airing during the attachment trial of Backalan vs. Littlefield, in the Superior Court here, last week,) the *Standard* boasts the finest printing office in the South, and indeed, it is fine. They have a splendid house, fine presses and material, fine rooms, fine furniture, desks, chairs, rich carpets, easy chairs, lounges, elegant gas fixtures, &c., &c. The General has fine horses and turn-outs, treats everybody, goes to the theatre, laughs and smiles, and talks to everybody, and is in for everything, regardless of expense. He wears fine diamonds, splendid rings and watch chains.

People of North Carolina, do you know who paid for this house and all this finery and parade? We can tell you; you did it. You, who make cotton and corn; you who hammer the anvil and push the plane; you paid for it, and are still paying. We repeat this man is the pet of the Governor, and the Governor gave him the power and opportunity to do all this at your expense. He gave him the office of State Printer; why did he not give it to Nichols and Gorman? or to John Neathery? Ah, why? Because it *paid better* to appoint the Prince of the "Ring." Do the people see? If they don't, they begin to *feel*, as the tax man goes his rounds to compel them to hand over their hard earnings in the shape of taxes.

Nichols and Gorman are *native* printers, fully prepared to do the work, and would have had the laws printed three months ago. We say this because we know they have done more book printing, with half the Standard force, since the adjournment of the Legislature, than the volume of the laws will make. But they were honest, industrious, reliable, and competent native mechanics, and the Governor could not think of encouraging them; he gave the public printing to the man that treated out five thousand dollars of Backalan's liquor to advance the objects of the "Ring," and now, don't pay for it; and don't do the printing, either.

QUITE A MISTAKE.—Many of our citizens, we are informed, are laboring under the mistaken idea that they cannot enter articles at the Fair, which opens to day, without paying the fee of three dollars, and that many valuable and beautiful articles are lost to the exhibition on account of this supposed rule. This is altogether a mistake; you can enter anything you please without paying the fee, unless you intend to compete for premiums; in that case the fee must be paid, but there is no fee required for merely entering articles for exhibition.

We hope those who may have articles of vertu, or products of industry, that would add to the attractions of the Fair will send them in.

THE FAIR! THE FAIR!!

We spent a short time at the Fair Grounds, yesterday (Monday) and were gratified to see the great numbers of entries being made in the various departments.—No further doubt need be entertained of the entire success of the Fair. Everything has been done by the Executive Committee that could be reasonably expected of them.

The Halls are in good repair and filling up rapidly; the seats arranged; the Judges' stand completed; the Musicians' seats conveniently located; the pumps in the wells; the track as smooth as a marble yard; the stalls and pens and coops all complete, and the Superintendent of each department busily engaged in placing to advantage, the various articles committed to his charge.

Floral Hall, under the superintendence of Miss Sophia Partridge and P. F. Pescud Esq., aided by a number of ladies of taste, will present a most attractive feature.

The other Halls will be well set off. Articles for each were coming in and being arranged in order during the day yesterday.

It is impossible to give any thing like a correct list of entries in this issue of our paper, as they were too incomplete, at the time of going to press.

Among the many entries made yesterday, we noticed the following:

By James M. Towles, Reapers, cider mills and presses, fan mill, cutters, shellers, wheat drill, horse powers, gleaners, a great variety of plows, and many other agricultural implements.

B. P. Williamson, a great variety of plows, cultivators, harrows, cane mill and evaporator, broad caster, cotton scrapers, barrows, &c., most of these of his own manufacture; also, cotton, leather and a variety of articles in that line.

Prominently on the ground devoted to Agricultural implements, stands an Utley Cotton Press, which will attract great attention as one of the useful inventions of the day. It is exhibited by T. H. Briggs, Esq., the manufacturer.

Sheriff Lee had on exhibition several buggies, sulky &c.

Dr. Hogg contributes a number of views in the Holy Land, a Turkish table cover, and many other unique articles, collected during his recent tour on the Eastern Continent.

Our own Artist, Watson, has a fine array of photographs &c.

Mr. J. P. Andrews, also, of Raleigh, exhibits a fine oil painting of a scene on the upper Rio Grande, and a fruit piece.

Messrs. Hunter and Shultz, of Salem have a variety of articles, furniture &c.—Mr. Shultz, the most thorough Bee master in the State, has samples of honey, and several stands of Common, Black and the Italian Bees.

Shanks and Barrett, pumps and hydraulic rams, some of them operating on the grounds.

A great variety of North Carolina woollen fabrics, from the Rock Island Factory at Charlotte, exhibited by C. Scott, Agent. This lot deserves a more extended notice, which we will give it hereafter.

Twelve different kinds of dried fruit, dried in Forsythe county, together with a fine lot of ladies, and men's shoes, exhibited by E. A. Vogler, of Salem, one of the most enterprising men in the State.

In Farmer's Hall we saw wheat, corn, a great variety of very fine garden vegetables, wines and other products of the Farm and Garden.

The Stock had not come in yesterday until late. We noticed a couple of fine young sows and pigs, by Dr. Green, a native boar and sow, by Mr. Stedman, four fine Chester pigs by J. B. Smith, an Essex sow by Dr. E. Burke Haywood, Cashmere Goats by Silvester Smith, and some native sheep by Mr. Kirkham.

A number of horses and colts, cows &c., came in late and others will be entered this morning.

A pretty strawberry basket, manufactured in Norfolk, and sold at two cents apiece, is exhibited by Mr. A. P. Bryan, who also has on hand, heavily insured, "the little old woman who lived in a shoe."

In the department of the Arts, the variety is not so extensive, but we are apprised of many additions to this department today.

The Forest Manufacturing Company exhibit superior Book, News and wrapping paper.

Floral Hall was the most bewildering, and we find it impossible to do justice to the subject. In the first place all the pretty women were assembled there, and in the next, there were a thousand pretty, useful, unique, antique, natural and artificial productions, that would require more space than we have at disposal, even to name.—We can only allude to some few, reserving the enlargement of the list to another time.

A beautiful toy clock, made by Mr. O. Salzman, of the firm of Palmer and Salzman, Milton N. C.

A large number of shell work picture frames and boxes, the names of the exhibitors of which we did not learn.

A quantity of bead work by the pupils of the D. D., and B., Institution of Raliegh.

A beautiful watch-case and pin cushion, by Miss Dupre, a blind teacher in the same Institution.

There are a great number of queer and pretty patch work quilts, among them one made a hundred years ago, in what is now Cabarrus county, by the grandmother of our esteemed fellow-citizen, Gen. D. M. Barringer.

Mr. Alfred Williams exhibits a number of beautiful chromo pictures.

S. Klise & Co., have a great variety of fancy and ornamental, useful and beautiful glass and China ware.

Mrs. Emily Smith exhibits a beautiful Afghan, which, we learn, is to be raffled off at the close of the Fair.

Mrs. Loenburg of Beaufort, has a quantity of beautiful shell work.

Miss Blanche Fentress exhibits a beautiful piece of Oriental painting, set in a frame of shell-work made by Miss Mag. Fentress. We regret that the glass of this beautiful painting was accidentally broken in bringing to the Hall.

Our space is filled. We will notice other contributions to morrow.

SCHOOL BOOKS.

UNIFORM SYSTEM OF

TEXT-BOOKS

FOR NORTH CAROLINA.

Office Publishers' Sup't of Introduction,

RALEIGH, N. C., Sept. 21, 1869.

A DEPOSITORY has been established at Raleigh, in charge of Mr. Alfred Williams, for the following books, which were adopted Aug. 9th, 1869, by the State Board of North Carolina for uniform use in the Public Schools:

PARKER & WATSON'S NATIONAL PRIMER.
PARKER & WATSON'S NATIONAL SPELLERS.
PARKER & WATSON'S NATIONAL READERS.
DAVIES' ARITHMETICS.
MONTEITH & MCNALLY'S GEOGRAPHIES.
MONTEITH'S YOUTH'S HISTORY OF THE U. S.
BERR'S SYSTEM OF PENMANSHIP.

THE NEW DESCRIPTIVE GEOGRAPHY OF NORTH CAROLINA will be ready about the middle of October, prox. The maps, &c., are now being engraved as rapidly as possible. This work will be furnished with Monteith & McNally's Series, without extra charge.

PROF. JEROME ALLEN'S COMPLETE SYSTEM OF MAP DRAWING will also be furnished to the Public Schools with Monteith & McNally's Series, without extra charge.

The books will be supplied at exceedingly low rates to the Public Schools in the State.

Similar terms will be made accessible to private schools adopting the above named books uniformly.

Pupils attending the Public Schools will, in accordance with the state contract, be furnished with new copies of Monteith & McNally's Geographies and Davies' Arithmetics in exchange for old copies of Cornell's Geographies and Quackenbos' Arithmetics, which they may possess.

Books will be supplied, carefully packed and shipped, by

ALFRED WILLIAMS,
Depositary, Raleigh, N. C.

Teachers and Educators generally are respectfully invited to correspond with

C. W. LAMBETH,
Agent for the Publishers
and sup't of Introduction.

From Dr. WM. B. HARRELL, Prin. High School, Snow Hill, N. C.:

SNOW HILL, N. C.

"I am much pleased with both the Spellers and all the Readers; and as to the series of Geographies by Monteith & McNally, I have long used no other era when those could be obtained.

From Rev. ALBERT SHEIDS, D. D., Rector of St. Mary's School, Raleigh, N. C.

RALEIGH, N. C.

I have examined the Geographies—Monteith's [No. 4] and McNally's [No. 5] and find excellencies in both, which eminently entitle them to a wide circulation. It is my purpose to introduce Monteith's [No. 4] into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works seem to me to be admirable. ALBERT SHEIDS.

From J. W. GULICK, A. M., Prin. Male Academy, Goldsboro', N. C.:

GOLDSBORO', N. C.

I find your books are in use in many Schools in this section. The teachers speak in the highest terms of your Readers and Geographies, and of Peck's Ganot in particular.

J. W. GULICK.

From Col. WM. BINGHAM, Prin. Bingham School, N. C.

The introduction of so much valuable matter on the subjects of Physical Geography and Geology, and in a form so simple and intelligible, makes it (Monteith's Intermediate Geography) in my judgment, a charming school book.

"We shall introduce Davies' Bourdon, perhaps others of your books."

From Dr. CLOSS, Prin. Durham Academy, N. C.:

DURHAM, N. C.

I design introducing the present session McNally's Geography and Davies' University Arithmetic; also Boyd's Elements of English Composition. M. CLOSS.

From M. L. LITTLE, Esq., Prin. Pleasant Hill Seminary, Newton, N. C.

NEWTON, N. C.

Will introduce the University Arithmetic next term. Have examined it with much satisfaction. An admirable work. M. L. LITTLE,
Prin Pleasant Hill Seminary.

From Rev. S. IVEY, Prin Auburn Academy, N. C.:

Monteith's Geographies are excellent works, and I shall introduce them into my school.

Prof. WM. A. OBERCHAIN, writing from Hillsboro' Military Academy, says:

The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.

From J. E. DUDGEN, Esq., Prin. Male Academy, Warrenton, N. C.

WARRENTON N. C.

"Davies' Mathematics" was adopted by me in 1858, and, up to this time, I have examined no works superior to them as a whole.

I have examined, with a view of introduction, "McNally's Geography" [No. 5] and "Peck's Ganot's Natural Philosophy." I consider them most excellent works, and shall put them in my boys' hands at the earliest period. The Philosophy is truly an enticing work and must meet with universal commendation. J. E. DUGGER.

From W. C. KERR, State Geologist of N. C.

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most primary Geographies; not the least of which, especially in the eyes of the juveniles, will be found in its attractive and very graphic illustrations. Another is the truly wonderful amount of substantial and really scientific information conveyed by these wood cuts, and the concise and lucid descriptions appended. But the chief excellence consists in this, that Geography is here treated from the only true and rational standpoint, viz: of Geology and Physical Geography; so that the learner arrives, by a natural and easy process, at the true conception of the earth as an organized whole; the designed result of successive changes and modifications, under the control of physical laws, constituting a true growth from a chaotic germ through manifold stages of progress, all pointing forward to its destined end as the home of living beings, and finally of man.

From Rev. G. D. BERNHEIM, Principal of Mount Amoena Female Seminary, Mount Pleasant, N. C.

MT. PLEASANT, N. C.

I have introduced your National Series of Readers with great satisfaction to myself and to our teachers. We find them to be excellent, just suited to our purpose.

With Davies' Mathematical Series we have been long familiar, and can find no good reason for changing them.

In the Primary Department we have Monteith's Geographies, and in the advanced classes we have introduced Peck's Ganot, with much acceptance. G. D. BERNHEIM.

From Prof. JOS. H. FOY, President Stantonsburg Scientific High School, N. C.

WILSON, N. C.

I have carefully examined the claims of the different Series of School Books most prominent before the public at this time. I have tested the merits of many of them in the school and lecture room, and feel no hesitancy in pronouncing the "National Series of Readers and Spellers" the best with which I am acquainted. I shall henceforth use no others in my school, and I shall furthermore use my influence to secure their adoption into other Seminaries in this section.

I use Davies' Mathematical Series in my school. I consider his works incomparably superior in many particulars, even to Stoddard's Course, which is saying a great deal. In fact, I consider it the highest encomium in my power to bestow.

I use Monteith's Series in my school. They afford a gradual but thorough and systematic progression, from the simple to rudiments of science, up to a development sufficiently exhaustive for all ordinary educational purposes. Their very superior merit has led me to discard ——— which stands next best on the list.

McNally's, the fifth book of the course, is decidedly the *chef d'oeuvre* of Geographies. No competent instructor can examine it for an hour without being struck with its extraordinary merit. J. H. FOY

From the Statesville, N. C. *American*, February 20th, 1868.

We would call the attention of Teachers in Western North Carolina to the valuable School publications of this firm, which are equal to any in the Union.

Messrs. Barnes & Co., of New York, are now issuing large editions of these Standard School Books for the Southern States. The series consists of the National Primer, or Word Builder, National Elementary Speller. The National First 2nd 3rd, 4th and 5th Readers. This firm will allow no competition in the price of books published by them, which are among the best in the States.

From the Raleigh *Daily Progress*, Feb. 20, 1868.

NATIONAL SECOND READER.—We have never examined a volume of its class which we could commend more cordially to parents and teachers.

From the N. C. *Presbyterian*, March 7, 1868.

NATIONAL FIRST READER.—We recommend it to all who desire a valuable book of instruction for beginners.

From the Wilmington, N. C. *Daily Herald*, 1868.

The National Series has attained probably a higher reputation than any other complete series of School Books now in existence.

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,

SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. They can be worn with perfect ease for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. How to select Glasses. It requires professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. When the eyes ache or pain through the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays, effect a most agreeable sensation and give great relief.

4. These spectacles are scientifically adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. After several years of public practice, adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight

6. M. Bernhardt, to signalize himself from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union

Raleigh, Aug. 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.

CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.

WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.

Very respectfully,
F. J. HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.

W. H McKEE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.

R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.

DRURY LACY, D. D.,
Late Prest. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

Raleigh, March 28, 1868.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public. JONATHAN WORTH,
Governor of North Carolina.

State of South Carolina,
EXECUTIVE DEPARTMENT,
Columbia, June 19th, 1868.

Sir: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,

Very respectfully yours,
JAMES L. ORR,
Governor of South Carolina.

Prof. MORRIS BERNHARDT, Charleston, S. C.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision. THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr. Bernhardt and most Opticians is, according to my observation, that while they pretend le more than they know, he knows more of his business than he professes.

W. K. BOWLING, M. D.

Testimonials similar to the above may be seen at Dr. Bernhardt's office, from the most reliable and well-known gentlemen of the United States, among whom are:

INSANITY AND ITS MEDICO-LEGAL RELATIONS, CONSIDERED UPON GENERAL PRINCIPLES, *by Charles E. Johnson, M. D., Raleigh, N. C., Printed for the Author by T. M. Hughes*, 1869—*Pages* 250. *Price* $1.75

I am surprised, Mr. Editor, that no legal or medical gentleman has before this called the attention of the two professions, especially as well as the public, to the excellent and able work above named by our worthy townsman, Dr. C. E. Johnson. I can only account for it by the reason of the excessive modesty of the able author, who hesitates to appear before the public.

The work has been recently issued, and is for sale at the Bookstore of Alfred Williams, Esq., and merits a much larger sale than can be supplied by its first edition. Those who, therefore, desire copies, should apply immediately. It is truly a North Carolina book, having been written by as genuine a North Carolinian as breaths, and printed by that excellent printer Mr. T. M. Hughes, and bound in the best style of Armstrong, all of this city.

The book was written to fill a vacuum long felt by medical and legal men, on a subject of great difficulty and of exceeding value, in determining by the Courts, the real character of the multiform cases of insanity which arise in the adjudication of legal difficulties occurring in cases of murder, fraud, proving wills, &c.

The author is fully sensible of the difficulty of his task and approaches it with caution, but with the confidence which a conviction of the correctness of his theory inspires. The author holds, that there are two classes of insane persons, the one intellectually insane, the other morally—that insanity in both instances may be general or partial and that each, are irresponsible.—This position the author supports by facts and reasoning, lucid and convincing, in which he sustains himself by the opinions of learned writers, exhibiting an amount of research, which the reader will be surprised to find has been made amid the active duties of a laborious profession. The work is dedicated to the members of the Medical Society of North Carolina. If Dr. Johnson fails to convince the professional reader entirely, he will have aroused in the intelligent mind a train of thought and a motive for further investigation, which must be attended by the best results.

VINDEX.

We call special attention of citizens and visitors, to the following Card of W. H. Crow, President Young Men's Christian Association.

ATTENTION! TO THE PUBLIC.

The winter is approaching, and the poor and indigent of our city are already making application to us for food and fuel, our Treasury is entirely empty. The plan heretofore has been, to appoint committees to wait on the citizens of each ward, to solicit contributions! We have determined on a different plan this fall to raise funds for that purpose, and we make a special appeal to every man, woman and child to help us in this good work. We have secured the services of Prof. S. M. Hewlett, one of the greatest Lecturers in this country, who will deliver a series of the most entertaining Lectures ever before delivered in Raleigh, on Wednesday, Thursday, and Friday nights, the 20th, 21st, 22d, inst., at Tucker Hall.

The price of admission has been fixed so low that all may have the privilege of hearing this truly great man, and at the same time, contribute something to help the poor. We assure you that every dime of the proceeds of these Lectures, after paying the expenses incurred, will be judiciously expended for the benefit of those who are dependent upon the Association.

We have laid our cause before you and hope that you will give us a crowded house every night, you cannot spend those evenings to more profit intelectually, nor can you give money to a better or more important cause, for,

"He that giveth to the poor lendeth to the Lord."

W. H. CROW,
President Y. M. C. A.

REMEMBER, the city ordinance against fast driving in the streets, will, we are informed, be strictly enforced by the authorities. So look out.

It is now thought that Salisbury will be selected as the terminus of the Fayetteville and Coalfields R. R.

From August 1st to October 1st, Statesville has shipped 305,168 pounds of dried fruit.

WASHINGTON.

WASHINGTON, Oct. 18.—Gov. Ritner of Penn., is dead, aged 90 years.

A letter from Alex H. Stephens, dated Oct. 15th says, it will be utterly out of his power to attend the State Fair at Macon Ga. He has been confined to the house since February last and has little hope of ever leaving home again.

The Supreme Court gave no decision to-day in the Yerger *habeas corpus* case.

KENTUCKY.

LOUISVILLE, Oct. 18.—Vigilance Committee operations at Taylorsville Indiana, have resulted in the death of several persons. An account says that a terrible state of affairs exists and that law-abiding citizens seem paralized.

NEW YORK.

NEW YORK, Oct. 18.—Two Cuban Privateers are reported as having escaped from the harbor.

The Haytien steamer "Peynot" departed, bearing U. S. colors, being apprehensive of capture by Privateers, should she bear Salnave's colors.

ALBANY, Oct. 18.—Breaks have been repaired and navigation of the Erie Canal was resumed to-day.

BUFFALO, Oct. 18.—The Car shops of the Lake Shore Railroad were burned last night. The loss is estimated at over $250,000 but the insurance will fully cover it. Fifty workmen thrown out of employment by this occurrence. The origin of the fire is unknown.

VIRGINIA.

RICHMOND, Oct. 18.—The Legislature met today. In both Houses a resolution was offered congratulating the country upon the recent Republican victories at the North. In the Senate it was laid on the table as being out of province of the present Legislature, and the House adjourned without action.

FOREIGN.

HAVANA, Oct. 18.—Spanish mail steamer has arrived bringing reinforcements.

WASHINGTON.

WASHINGTON, Oct. 18.—Revenue to-day, $621,000.

Farragut is improving.

Boutwell declines receiving Assistant Treasurer Richardson's resignation.

Capt. W. F. Baily of the 33rd Infantry has been dismissed from the service for refusing to pay his board and tailor's bills at San Antonio Texas. Lieut Shelhamer of the 7th Cavalry has been dismissed, conduct unbecoming an officer. Capt. Granger of the 25th Infantry has been dismissed and imprisoned at the Dry Tortugas for misapplication of public money. The President approves the sentences.

Gen. Thomas reports from Alaska against the establishment of the Revenue service there, as it will cost more than it will come to. No lines discovered. Plenty of timber and coal, but there is equally good hundreds of miles South. Grain cannot be raised; it will rot within a few weeks.

In the Supreme Court, in the case of J. H McKee ex. the U. S. has been decided. The case involved a claim for cotton and other property captured in Louisiana by naval forces in '64.—The case was decided against McKee and the decision is confirmed.

Reliable information to the effect that the Hornet will be detained at Wilmington by the Government authorities, and it is thought here the ultimate result will seize and dismantle her, on the ground of violation of the neutrality laws.

Coin balance in the treasury at this date $114,000,000 including $27,000,000 gold certificates.

WILMINGTON.

WILMINGTON, Oct. 18.—The case of the "Cuba" was again postponed until Thursday, on account of the absence of Mr. Lowery, one of the counsel for the "Cuba." No further development.

THE UTLEY
COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes: and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

Be Beautiful. If you desire beauty you should use Hagan's Magnolia Balm.

It gives a soft, satin-like texture to the Complexion, removes Roughness, Redness, Blotches, Sunburn, Tan, &c., and adds a tinge of Pearly Bloom to the plainest features. It brings the Bloom of Youth to the fading cheek and changes the rustic Country Girl into a Fashionable City Belle.

In the use of the Magnolia Balm lies the true secret of Beauty. No lady need complain of her Complexion who will invest 75 cents in this delightful article.

THE NATIONAL,	63,48
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It insured more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 569 policies, received an income of seventy-eight thousand dollars, and possessed net assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 15 837 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

MEDICINES, &C.

Koskoo!

THE GREAT REPUTATION
Which KOSKOO has attained in all parts of the Country
AS A GREAT AND GOOD MEDICINE,
has induced Dr. LAWRENCE TO ENLARGE HIS LABORATORY and FACILITIES for MANUFACTURING, so as to be enabled to supply the extraordinary demand for it.

THE LARGE NUMBER OF TESTIMONIALS which are constantly being received from Physicians, and persons WHO HAVE BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

As a BLOOD PURIFIER, it HAS NO EQUAL,
BEING POSITIVELY THE
Most Powerful Vegetable Alterative
YET DISCOVERED!

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the Blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white co t. This condition soon shows itself in *roughness* of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long confined, results in serious lesions of the brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are affected with scrofula in some form.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not so liable to any disease Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO!

AS A
LIVER INVIGORATOR!
STANDS UNRIVALLED.

BEING THE ONLY KNOWN MEDICINE that EFFICIENTLY *stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the LIVER, without debilitating the system. While it acts PURELY upon the Liver instead of COPIOUS PURGING, it gradually changes the discharges to a PERFECTLY NATURAL STATE.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellow-tish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes headache; *blues* or bad taste in the mouth, internal heat; in many cases a dry tearing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!

Is a remedy of WONDERFUL EFFICACY in the cure of diseases of the KIDNEYS and BLADDER. In these affections it is as near A SPECIFIC as ANY remedy can be. It does its WORK KINDLY, SILENTLY, and SURELY. The RELIEF which it affords is both CERTAIN and PERMANENT.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the IMPORTANCE of their healthy action.

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding, with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the urine being imperfectly secreted in Kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

MEETS WITH GREAT SUCCESS IN THE CURE OF
Diseases of the Nervous System.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, [mental and physical] are causing diseases of the nervous system to increase at a fearful ratio.

The symptoms to which diseases of the nervous system give rise, may be stated as follows. A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in answering questions; Dulness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured, but recollect that God, in His Providence, has not afflicted His children with pain and disease, without at the same time giving them something in the Great Garden of Nature that will cure them.

Have no hesitation in writing to me, and stating your case in full, and I will answer you promptly.

WHY IS IT BEST TO INSURE
IN THE
BROOKLYN LIFE?
BECAUSE,

AMONG OTHER REASONS, IT IS THE ONLY COMPANY IN THE UNITED STATES WHICH PRESENTS THE GREAT FEATURE OF GUARANTEEING DEFINITE

CASH SURRENDER VALUES,

IN CASE A POLICY IS FORFEITED FOR NON-PAYMENT OF PREMIUM.

ALL POLICIES

Are non-forfeitable after two full Annual Premiums have been paid.

The policy-holders of this Company may travel or reside where they choose—anywhere on the Globe.

The BROOKLYN LIFE has paid, and now pays to its policy-holders, LARGER DIVIDENDS than ever before paid by a Life Insurance Company.

DIVIDENDS ARE PAID IN CASH,

or applied to the permanent increase of the policy, or left with the Company to accumulate at interest, in either way, at the option of the policy-holder.

GULLETT'S COTTON GIN.

ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins, named in this advertisement, after fair trial, it will be no sale.

The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.

I am Agent for its sale and would be pleased to fill orders.
